

WALROSS

WALROSS

Track list

- 1 Talking 'bout love
- 2 Oceans and trees
- 3 Yet
- 4 Walrus
- 5 Road out of town
- 6 Shining together

Release: K7 Tape, digital

The sound of Walross is heavy and beautiful. It is inspired by hard rock bands like Free, UFO or CRR who were themselves influenced by classical blues- and soul. Accordingly, the songs are warm, organic and honest and live through the synergy of vocals, guitar, bass and drums. The added organ sound combined with the bluesy guitar riffs make the mixture complete for travelin' back to the 70s. The release of their debut EP (limited edition on cassette, published by sixteentimes music) is at the same time a farewell gift. Reluctantly the band lays their creative phase to rest.

More reasons to celebrate than a birth and a sendoff at once? Happen only once in a blue moon.

Album: Walross
Artist: Walross
